Certificate of Completion

Quray Asarpay Potosi Dumaguala

Solvation Scholars Undergraduate Exchange - 2026 Summer Research Programme

Ms. Potosi Dumaguala conducted and presented research on the 'Development of High-Dimensional Neural Network Potentials for Niobium disulfide Monolayers with Topological Defects' from **24. May - 21. August 2026** in the labs of **Prof. Dr. Jörg Behler** at the Ruhr-Universität Bochum, sponsored by RESOLV. Attandance included RESOLV's 12th Summer School Solvation Science: 2 days of lectures addressing state-of-the-art research in the area of Solvation Science, 1 day of workshops and career exchange with guests from industry, and a 1-day advanced experimental training in 'ElectroCat: From Electrocatalysis to Density Functional Theory (DFT)'.
