NATURAL SCIENCE BALTIC CONFERENCE

Certificate

of participation in the Natural Science Baltic Conference 2025

It is certified that

Quray Potosi

participated in the Natural Science Baltic Conference

with poster communication

Computational studies of topological defects on transition-metal dichalcogenide NbS_2 monolayer superlattice

The Natural Science Baltic Conference (10-11.05.2025) is a free international conference for students, PhD students and postgraduates that aims to enhance the scientific potential of young scientists. The conference was attended by 236 participants, and 114 presentations and posters were showcased by speakers from 37 different research centers in 13 countries.

On behalf of the organizers of Natural Science Baltic Conference

MSc Mateusz A. Baluk

CHAIRMAN – HEAD of Organizational Activities of Natural Science Baltic Conference
